California Assessment of
Student Performance and Progress

Introduction and Notes

This document contains the file layout and data definitions for the 2018–19 California Assessment of Student Performance and Progress (CAASPP) assessments administered by your local educational agency (LEA) in 2018–19. The data includes student demographic information, test scores, and test administration information. In addition to the file layout, the following reference tables that define the code sets for selected fields are provided beginning on page 121:

- Primary Language Codes (California Longitudinal Pupil Achievement Data System [CALPADS])
- Common Education Data Standards Language Codes
- Primary Disability Codes
- Condition Codes
- Attemptedness/Completion Codes
- Include Indicators for Aggregate Reporting
- Claims for Smarter Balanced Summative Assessments
- Scale Score Ranges for Smarter Balanced Summative Assessments
- Scale Score Ranges for California Alternate Assessments

The notes in this section provide important information concerning key elements of the file layout.

What's New in 2018–19 for the LEA Downloadable File

California Science Test (CAST) Reporting

Student results from the CAST operational assessment will be available in December 2019.

California Spanish Assessment (CSA) Reporting

Student results from the CSA operational assessment will be available in December 2019.

New Fields

What follows are the new fields in 2018–19:

- Field 25—Primary Language
- Field 26—Military Status

- Field 27—Foster Status (left blank in 2018–19)
- Field 28—Homeless Status
- Fields 110–112—Blank
- Field 114—Writing Extended Response (WER), Organization and Purpose dimension
- Field 115—WER Development/Evidence and Elaboration dimension
- Field 116—WER Conventions dimension
- Fields 151–156—Non-embedded accommodations for the California Alternate Assessment (CAA) for Science
- Fields 163, 172—Embedded Designated Support, Streamline
- Fields 176–183—Embedded designated supports for the CAA for Science
- Field 185—Non-Embedded Designated Support, Bilingual Dictionary for the CSA
- Field 190—Non-Embedded Designated Support, Medical Device
- Fields 206–207—Non-embedded designated supports for the CAA for Science
- Fields 215–226—Non-embedded designated supports for the CAA for Science
- Field 238—Non-Embedded Designated Support, Medical Device for the Smarter Balanced paper-pencil test
- Field 248—Number of Items Attempted 3 for the CAA for Science
- Field 288—Growth Score
- Field 289—Blank

Reference Tables

- There is a new table that contains the [Common Education Data Standards Language codes](#).
- The CAA for Science and the CSA have been added to the list of the [Attemptedness/Completion Status codes](#).
- The CSA has been added to the list of [Include Indicators](#).

Student Demographics

The student demographic data used in all aggregated reporting, including the data shown on the CAASPP Results website, is derived from CALPADS and reflect student demographics as captured in the demographic snapshot in the Test Operations Management System (TOMS), which is taken on the last day of the LEA selected testing window. Note that the source for each field is indicated in the file layout.

Data sources for the student data file are as follows:

- CALPADS—Extracted from CALPADS
- Derived—Created during generation of the student data file
- Scoring—Created as a result of scoring
- Test delivery system—Extracted during processing of submitted online and paper-pencil assessments
- TOMS—Extracted from TOMS
- School and Grade Identification (SGID) Sheet—Extracted during processing of the SGID that accompanied paper-pencil tests (PPTs) for scoring

Score Data

Score data includes the overall scale scores and achievement/performance levels for operational assessments. Also included are the claim performance levels for the Smarter Balanced assessments. The standard errors of measurement (SEMs) of the Smarter Balanced scale scores are provided as well as the lower and upper bounds of the error band representing +/- one SEM.

Test Administration Data

Test administration data includes flags and condition codes describing specific elements of test administration. These include flags for attemptedness/completion status, special testing conditions (cheating, parent/guardian opt out, etc.), and indicators of the embedded or non-embedded resources to which students were given access during the assessments.

Derivation of the Accommodations and Designated Support Indicators

The accommodations available indicator (field 118) is derived by Educational Testing Service (ETS) and set to a “Yes” value if any accommodations were available in the student’s test record. The field description and the acceptable values columns in the layout provide specifics on the accommodations.

For example, where `Embedded Accommodation 1- Text-to-Speech Passages (Online)` (field 124) has the value `“TDS_TTS_Stim,”` then the accommodation available indicator (field 118) is set to “Yes.”

The designated support indicator (field 119) is also derived by ETS and set to a “Yes” value if any designated supports were available in the student’s test record. The field description and the acceptable values columns in the layout provide specifics on the designated supports.

For example, where `Embedded Designated Support 1 - Permissive Mode (Online)` (field 160) has the value `“TDS_PM1,”` then the designated support available indicator (field 119) is set to “Yes.”

Fields of Note

The following fields are of particular importance:

Field #	Section	Additional Explanation
1	Record Type	<p>Each record in the file will have a Record Type in Field 1 that identifies the test title. There are seven possible record types:</p> <ol style="list-style-type: none"> 1. Smarter Balanced Summative for English Language Arts/Literacy (ELA) (01) 2. Smarter Balanced Summative for Mathematics (02) 3. CAA for ELA (03) 4. CAA for Mathematics (04) 5. CAA for Science (05) 6. CAST (06) 7. CSA (09) <p>An individual student could have up to four records. For example, a student in grade five has three records: for Smarter Balanced for ELA, Smarter Balanced for Mathematics, CAST (grade five), and CSA.</p> <p>The Smarter Balanced records include data for the non-performance task (non-PT) and performance task (PT) sections of the test.</p>
43, 45, 47	Opportunity 1–3 Testing Status	These fields indicate if the test was completed, expired, or invalidated.
49–70	Test Details—Testing Location	<ol style="list-style-type: none"> 1. LEA and school information are provided multiple times in the data file because students may be associated with more than one school if they started one of the Smarter Balanced Summative Assessments (in the content areas of ELA or mathematics; or the PT or non-PT sections) at one school and finished at another. 2. County/District and School codes are populated with the school where the student was enrolled and tested if the student took the test. Otherwise, these codes reflect the school where the student is registered. 3. Blank County/District and School code fields indicate that the student did not complete a test part. 4. A separate school also can be associated with the PPTs.

Fields of Note (*continuation one*)

Field #	Section	Additional Explanation
71–82	Test Details—Testing Date and Window	<p>Test date fields are either</p> <ul style="list-style-type: none"> • blank, if the student did not test; • populated with test dates, if the student submitted an online test; or • populated with the expired date, using Smarter Balanced test expiration rules or if a test was manually expired after the LEA’s selected testing window end date. <p>Test window fields are either</p> <ul style="list-style-type: none"> • populated based on the latest test registration, if the student did not test; or • populated with test dates, if the student submitted an online test; or • populated with the expired date, using Smarter Balanced test expiration rules or if a test was manually expired after the LEA’s selected testing window end date.
89	Testing Special Conditions—Condition Codes	A special condition code indicates the presence of a particular circumstance during testing. Refer to the Condition Codes reference table that starts on page 126 for a list of codes included in this field. Only one condition code can be applied per record type.
90	Attemptedness	This flag designates students as either non-completion, partial-completion, or completion. Refer to the Attemptedness/Completion Status Codes (Field 90) reference table for definitions of the statuses.
92	Unlisted Resource Construct Change	This field indicates if the student had available an approved unlisted resource that changed the construct of the test.
94	Include Indicator	Include Indicators, when set, indicate how a result for an assessment will be treated for reporting number tested and aggregate data including performance/achievement level proportions and scale score averages, and codify why a student’s score may not be reported. Include Indicators also show whether or not a student has taken required tests. Refer to the Include Indicators for Aggregate Reporting (Field 94) reference table for more information.

Fields of Note (*continuation two*)

Field #	Section	Additional Explanation
106–108	Smarter Balanced Scale Scores Error Bands	A random variation in individual scores that is quantified through the use of a statistic of measurement precision is called the conditional standard errors of measurement (CSEM). CSEMs are shown in bands or ranges. The maximum and minimum scale scores for +/- one CSEM are also provided. Note that the CSEM included with student test data is presented as a two-digit number followed by two blank spaces. This number has been rounded up from a decimal to a whole number.
249–287	Historical Score Data	Historical score fields include Grade Assessed, Smarter Standard Error of Measurement, Scale Scores, and Condition Code. Historical score fields are available for Smarter Balanced for ELA and mathematics and CAAs for ELA and mathematics.
290	UIN (Unique Identification Number)	Because a student who takes Smarter Balanced Summative Assessments or a science test might also take the CSA, the UIN, which is unique for every record in the file, may be used to join the records together so that all student information can be matched.

Attemptedness/Completion Status Codes (Field 90)

Test	Attemptedness/ Completion Status	Label	Description
Smarter Balanced (SB) ELA and Mathematics	N	Non-completion	A student had not logged on to both parts or logged on to a single part of the test (non-PT or PT), but not both.
SB ELA and mathematics	P	Partial-completion	A student logged on to both parts (non-PT and PT) of the test but did not respond to any items on one or both parts.
SB ELA and mathematics	Y	Completion	A student logged on to both parts (non-PT and PT) of the test and responded to at least one item on both parts.
CAAs for ELA and mathematics	N	Non-completion	<p>A student had no test logon, or a test logon with no item scored (student did not answer an item).</p> <p>Note: Students who logged on will receive an “INC0” Condition Code (refer to the Condition Codes (Field 89) reference table for a description) and will be assigned a “Y” Include Indicator (field 94). Student test records with a “Y” Include Indicator are counted as valid scores.</p>
CAAs for ELA and mathematics	P	Partial-completion	<p>A student had a test logon and the number of scored items (student answered) is greater than 0 and less than 4.</p> <p>Note: Students will receive an “INC1” Condition Code (refer to the Condition Codes (Field 89) reference table for a description) and will be assigned a “Y” Include Indicator (field 94). Attemptedness/Completion Status Codes (*continuation*)

Test	Attemptedness/ Completion Status	Label	Description
CAAs for ELA and mathematics	Y	Completion	A student had a test logon and number of answers (scored items) is greater than or equal to 4.
CAA for Science	N	Non-completion	A student had not logged on to all three PTs.
CAA for Science	P	Partial-completion	A student logged on to all three PTs and either no items were seen or items were seen but no response was given for any of the three PTs.
CAA for Science	Y	Completion	A student who logged on to all three PTs, saw items, and responded to at least one item across all three PTs.
CAST	N	Non-completion	A student had not logged on to the test.
CAST	P	Partial-completion	A student logged on to the test but did not respond to any items.
CAST	Y	Completion	A student logged on to the test and responded to at least one item.
CSA	N	Non-completion	A student had not logged on to the test.
CSA	P	Partial-completion	A student logged on to the test but did respond to fewer than one item
CSA	Y	Completion	A student logged on to the test and responded to one item or more in total.

Include Indicators for Aggregate Reporting (Field 94)

Test	Code	Meaning of Include Indicator
SB ELA and mathematics	N	Student either <ul style="list-style-type: none"> • did not test; • only completed one section [Non-PT] or [PT] in the content-area assessment; • had a parent/guardian exemption; or • had a significant medical emergency (out for testing window).
SB ELA and mathematics	E	Student was exempt for the ELA assessment due to being enrolled in a U.S. school for less than 12 months.
SB ELA and mathematics	T	Student who was tested and did not meet either the scoring threshold or the completion/attemptedness is a value of “P.” However, a “T” Include Indicator also includes the LOSS condition code, which could have either a “P” or “Y” value in the Attemptedness field.
SB ELA and mathematics	R	Student was tested with an unlisted resource where one of the following conditions existed: <ul style="list-style-type: none"> • the test construct was changed; • the test was invalidated; or • the student was observed cheating.
SB ELA and mathematics	Y	Student was enrolled during the active testing window, completed the test, and has met completion/attemptedness criteria.
CAAs for ELA and mathematics	N	Student either: <ul style="list-style-type: none"> • did not test; • had a parent/guardian exemption; or • had a significant medical emergency (out for testing window).
CAAs for ELA and mathematics	E	Student was exempt for the ELA assessment due to being enrolled in a U.S. school for less than 12 months.
CAAs for ELA and mathematics	R	Student was tested with an unlisted resource where the test construct was changed or the test was invalidated.
CAAs for ELA and mathematics	Y	Student was enrolled during the active testing window, completed the test, and has met completion/attemptedness or has an INC0 or INC1 condition code.
